

# BROADSIDE

EMPIRES OF STEEL

CANCON 26'. 600 POINT OPEN.

## FOREWORD

Welcome to the Cancon 26' 600 point open tournament! Cancon is the first tournament of the year for Broadside: Empires of Steel in 2026.

*Broadside: Empires of Steel has been designed for fast, action-packed games between fleets consisting of roughly 7 to 10 ships per side.*

*The rules allow you to play a game of six rounds in a couple of hours with decisive results. They are also designed to be fun, without the need for consulting vast numbers of tables to find out what is happening to your ships.*

*The rules will also force you to make difficult choices during play. Do you keep your dreadnought steady for more accurate gunnery, or do you need to take evasive action before the enemy finds her range? Is it worth putting your destroyers in harm's way for a torpedo run, or should you keep them back for now? Do you need to send extra men to stop that flooding right now, or is it more important to put one last, accurate broadside into the enemy first?*

## MISSIONS

Attack at Dawn, After the storm, The Labyrinth & Open sea duel.
